

MEETING | PLANT 51 - June 28, 2019

The following two tables summarize the results of community engagement for Plant 51 Meeting.

What are your Access-Related Priorities?

When thinking about the future station, what are the most important things from this list?

Reduced car traffic in the station area, allowing for more bikes and walking	12
A short, intuitive connection between the BART platforms and the platforms for heavy rail services (such as High-Speed Rail, Caltrain, Capitol Corridor, and ACE)	10
Station hall close to bus routes on Santa Clara Street	7
A main entrance from the west, as well as from the east (facing downtown)	3
Station hall close to bike routes on San Fernando Street	
Passenger drop-off near the station entrance for personal and ride-share vehicles	
Car parking near the station	

What are your Urban Integration-Related Priorities?

When thinking about the future station, what are the most important things from this list?

A highly visible and iconic station	10
More vibrancy and activity along Santa Clara Street	8
A variety of gathering spaces and activities inside and outside of the station hall	6
Proximity to venues and shopping on Santa Clara Street	4
A pedestrian plaza near the station entrance	4
The ability to walk from one side of the tracks to the other without going through an underpass	1
More trails running through the station area	
More vibrancy and activity along San Fernando Street
