

POP-UP WORKSHOP | SPUR - JUNE 12, 2019

The following two tables summarize the results of community engagement for the Pop-up Workshop.

What are your Access-Related Priorities?

When thinking about the future station, what are the most important things from this list?

| | |
|---|----|
| A short, intuitive connection between the BART platforms and the platforms for heavy rail services (such as High-Speed Rail, Caltrain, Capitol Corridor, and ACE) | 22 |
| Reduced car traffic in the station area, allowing for more bikes and walking | 14 |
| Passenger drop-off near the station entrance for personal and ride-share vehicles | 10 |
| Station hall close to bike routes on San Fernando Street | 7 |
| Station hall close to bus routes on Santa Clara Street | 3 |
| Car parking near the station | 3 |
| A main entrance from the west, as well as from the east (facing downtown) | |

What are your Urban Integration-Related Priorities?

When thinking about the future station, what are the most important things from this list?

| | |
|---|----|
| A variety of gathering spaces and activities inside and outside of the station hall | 15 |
| A highly visible and iconic station | 12 |
| A pedestrian plaza near the station entrance | 10 |
| More vibrancy and activity along Santa Clara Street | 10 |
| More vibrancy and activity along San Fernando Street | 6 |
| Proximity to venues and shopping on Santa Clara Street | 2 |
| More trails running through the station area | 2 |
| The ability to walk from one side of the tracks to the other without going through an underpass | 2 |
